SUPERVISORS HOLD SPECIAL MEETING

Board Declines to Interfere in Matter of Salaries—Grand Jury's Suggestions Approved.

The Board of Supervisors met in adjourned session Monday, March 24th, there being present Wm. H. Brown presiding, Jas T. Casey, Jos. M. Francis and John MacBain.

The minutes of the previous meeting were read and approved.

George C. Ross appeared before the board and spoke in reference to the cremations at Mount Olivet cemetery, to which matter he had called the board's attention at the last meeting. He repeated his statement that the cemetery association was desirious of paying the regular fee for cremations, which are being conducted, during the pending appeal to the upper court. The fee had been offered to the health officer who declined to receive it and issue the usual permits.

Health Officer Beattie stated that in refusing to accept the fee tendered him by the cemetery association he was following the instructions of the district attorney.

District Attorney Swart stated that he had so instructed the health officer.

Under these circumstances the board declined to interfere.

Mr. Ross addressed the board in reference to the board making a recommendation to the State Lgislature as to the salaries of the county officers of this county.. Supervisor MacBain addressed the board and stated that he had read the proposed recommendation submitted to him a week ago by Mr. Ross and that he did not agree with Mr. Ross; that said recommendations were not right, and thereupon moved that the whole matter be tabled.

Supervisor Casey in seconding the motion asked Mr. Ross if he did not think the legislature should consider the report of the grand jury, said body being authorized by law to investigate and report upon said matters; that he had not heard a single taxpayer objecting to the salaries as now paid to the officers of this county.

Chairman Brown, before putting the motion, stated that he was not in favor of reducing the salary of any of the county officers; that if some were underpaid why not raise them.

Whereupon the motion was put and unanimously carried.

Francis addressed the board in reference to an injustice that was being done to the coastside farmers by the Hillsborough authorities in causing their arrest for hauling loads of produce over the Crystal Springs road of that city which was a part of the main highway leading from Halfmoon Bay to San Mateo, and the only reasonable route to be traveled. Saturday two farmers were arrested and subjected to the hardship and expense of appearing for trial in the evening.

District Attorney Swart informed the board that it was the right of the Hillsborough trustees to regulate the weight of loads that might be hauled over their streets but he was not sure that such rules could be enforced on teams that were in transit.

Mr. Swart thought that further difficulty might be obviated were the county to take over the Crystal Springs road and keep it up at its own expense.

The matter was disposed of by referring it to Mr. Swart who will confer with the Hillsborough officers and try to arrange a settlement.

Another communication was received from Daly City asking the board to take action on the offer of that city to give its central thoroughfare for the State highway.

Manager Fuller of the County Development Association advised that the communication be accepted and filed, at the same time assuring the board that the State Highway Commission would itself make a satisfactory explanation to the Daly City people.

MacBain informed the board that there was a dangerous place on the Middlefield road near the Flood residence that should be bulkheaded. Several accidents had occurred there recently, fortunately none of which were serious.

On MacBain's motion, seconded by Casey, the surveyor was directed to prepare plans and specifications for a suitable bulkhead for the place mentioned.

Resolutions were received from the Civic Betterment League of the First township endorsing the good roads bonding proposition.

District Attorney Swart stated that it was the desire of the State Highway Commission to change the route of the Mission road and avoid the two railroad crossings by adopting a route on the west side of the railroad from Holy Cross to Baden. He then presented a petition signed by Henry Geilfus and twenty-two other citizens asking that viewers be appointed to view and lay out the road on the route mentioned. The consenting property owners, who gave the necessary rights of way without cost, are: The Crocker Estate Company, John D. Daly, F. D. Smith, F. S. Knowles, H. Cowell estate, Elizabeth C. Hamlin and D. D. Hamlin, Los Animas and San Joaquin Land Company, James L. Flood, Baden Land Company, Cypress Lawn Land Company, Spring Valley Water Company.

The nonconsenting owners are: Geo. M. Collopy, Wm. R. Gouin, J. H Millett, Joe Millett, Mike Millett, John Millett, L. Bocci, Paul Arata, G. B. Cavaganaro, Cesare Granbruno, Frederico Chipari, Cesare Calovi, Giovanni Moringo, Atilo Ponzini, G. B. Solari, Vincenzo Bennero, Paul Arata, F. Lagomarsino, Miller & Lux Company.

Supervisor Casey was sworn and testified that the signatures were secured by him and all were genuine, and that more than ten of the signers were free holders.

The District Attorney presented a bond for $200 signed by H. O. Heiner and A. McSweeney, which, with the petition was accepted on motion of Casey, seconded by Francis.

On motion of Casey, seconded by Francis, the following were appointed to view and lay out the road in question: George Sneath of San Bruno, H. C. Tuchsen of Redwood City and Surveyor Neuman.

It was requested that the viewers present their report at the meeting to be held next Monday.

Mrs. William Lehnguhl of Redwood City applied for help for herself and three children, representing that her husband was ill in the county hospital and she was in need of assistance.

MacBain asked that the matter be referred to him for submission to the local probation officer for investigation, and the matter was so disposed of.

Surveyor Neuman reported that he was engaged in making surveys in the Third road district and asked permission to establish monuments for the accurate location of the roads. He was granted same on motion of MacBain, seconded by Casey.

Surveyor Neuman reported that he had examined the culvert constructed by Charles Cofiori at Campo Bello, Third district, and found that the claim for the work should be $358.75 instead of $380, an error having been made by the contractor in his measurements.

Adjourned to Monday, March 31.

SUPREME COURT DECIDES COBURN IS INCOMPETENT

The State Supreme Court Monday affirmed the judgment of the Superior Court of this county, appointing Public Administrator M. J. Hynes guardian of the estate and property of Loren Coburn of Pescadero. Coburn is at present 84 years of age, and his nephew, Azro A. Coburn, instituted the guardianship proceedings, declaring that his uncle was incompetent, mentally and physically, to guard his property.

Loren Coburn, in fighting the porceedings, attacked the constitutionality of the act providing that a court shall have the right to appoint a guardian for one incompetent. Coburn's property wealth, the Supreme Court declares, is in excess of $1,100,000. Azro Coburn has already spent $15,000 to have his uncle declared incompetent in appeals and trials, according to the evidence in the case. In its decision the Court says:

"It is a harsh necessity that compels this Court to subject to guardianship the person and property of a man who has displayed the capacity and frugality to acquire so large an estate, and one who still preserves to a considerable degree his native shrewdness. The effort of Loren Coburn to avoid this result must appeal to the sympathy of every one of us, but when it is shown that Coburn's mental powers have deteriorated to such an extent as to make him unfit to manage his properties, it becomes the Court's duty to appoint a guardian."

Coburn was twice declared incompetent by the Superior Court of this county. The first decision against him was reversed by the Supreme Court. A year ago he was pronounced incompetent to manage his vast estate after a lengthy trial before Judge Dooling of Hollister, sitting for Judge Buck. He appealed directly to the Supreme Court with the result above recorded, in having the lower court decision affirmed.

Loren Coburn has the distinction of having had more law suits than any resident of California. He is still full of fight and there is no probability that the matter will end at this stage. He will doubtless apply for a rehearing and if again defeated will endeavor to get his case before the Supreme Court of the United States.

MUCH ENTHUSIASM FOR GOOD ROADS

Stockton Businessman Volunteers in Progressive Movement and Addresses Citizens.

The good roads meetings at which Senior U. S. Highway Engineer B. F. Burrell and J. M. Eddy of the Stockton Chamber of Commerce have lectured have proved highly successful. The enthusiasm of the voters is daily increasing and a record vote is in prospect on April 8. M. B. Johnston, the Halfmoon Bay member of the road commission has spoken with the two experts and will appear with them at each of the meetings scheduled from now until the end of the month.

The first meeting of this series was at Menlo Park last Thursday and this was followed by the meeting at the Alhambra Saturday night. Monday the experts spoke at Colma and last night at San Mateo. Supervisor Giannini of San Francisco and Sylvester J. McAttee, secretary to Mayor Rolph, spoke at the San Mateo meeting.

Burrell proved to be a forceful and convincing speaker with a wealth of experience in road matters. He has the faculty of making figures and statistics interesting and his trenchant style adds to the value of his lectures which are illustrated by photographs and stereoptican slides of good and bad roads both in this country and abroad. Eddy who deals with the bond issue of the subject has had a wide experience in this field and is a worthy running mate to Burrell. Johnson takes up the local side of the question, dealing specifically this way the three speakers cover the subject thoroughly.

Burrell's trenchant sentences are sometimes very picturesque:

"Americans, going from a country of unsurpassed scenic grandeur, spent more than $200,000,000 in Switzerland last year for scenery," said he in his talk to the local people. "You have hundreds of millions of dollars worth of scenery right here in San Mateo county but you can't sell it unless you have good roads.

"Scenery is a wonderful asset to a community. You can sell it over and over again and still retain it undamaged. It costs nothing to keep up.

"There are hundreds of communities in Europe whose entire subsistence depends upon their scenery. Americans are the greatest tourists in the world and thousands of Europeans depend upon us for their living. They have been catching American dollars for many years with their scenery and their good roads leading to it. They have capitalized their scenery. We buy it."

Eddy showed that the bond issue is not an expense to a community and proved that it is an investment of the best kind. He points to the fact that the money expended for the roads comes from the outside and goes into circulation here. He showed how every individual will benefit not alone from the good roads, but from the money expended upon their construction.

All of the speakers dealt in government figures and statistics, proving beyond all doubt the greater value of good roads to a community. Burrell pointed out that the farmers in this county will place themselves in a position to be almost independent of the railroads, by securing the passage of the good roads bonds, showing that with good roads and the auto truck they are in touch with the metropolitan market in all weather.

Gift to Grammar School

The grammar school was the recipient this week of a handsome gift from Louis Behrens of the eighth grade, son of L. P. Behrens. The gift consists of a handsome bronze tablet on which is inscribed Lincoln's Gettysburg Address and also a bronzed bas relief framed, entitled, "The Spirit of '76." These will be hung in the lower corridors where the children can see them daily.

Mrs. G. B. Yount and daughter left on Sunday for a three-months' eastern trip to visit her father and mother in St. Louis and friends in Philadelphia.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

BE AN OPTIMIST.

There is so much of good in our city today that the future seems all sunshine; yet to some there is so much ill that the morrow looms up dark and uncertain. There are two voices continually calling aloud—the voice of pessimism and the voice of optimism, comments the San Jose Times on the local situation.

Pessimism laments the lack of opportunity. Optimism creates opportunity. In the treadmill of enervating despondency, pessimism makes a living. In the whirling dinamo of stimulating inspiration, optimism makes a life. Be an optimist above your town—look at the bright possibilities of its future.

Lack of public spirit, of hopefulness, of optimism, will kill the best city in the world. A spirit of hopefulness, of optimism, will make a thriving city of any location with even half the facilities for development possessed by our locality. When a man in search of a place to locate a factory goes to a place where everybody and everything is full of hope and confidence, he feels that it is a good place to locate, and he at once becomes imbued with the boosting, optimistic spirit with which he comes in contact.

The optimist is the man who thinks big thoughts and is ready for big things; he breathes life; he creates it; he is a live, dynamic force, and as it is with the individual so it is with the city. A city or community of optimists does things—it not only creates life, but it attracts more life to it.

Redwood City has no need for the pessimist. It can't afford to have its progress hampered by the growlings of the pessimist, whose prime mission seems to be the tearing down of what others have created.

Have faith in your town, and exhibit your faith by your works. This means the spending of your money at home—to make your town richer and stronger. It means the patronizing of home industries, home enterprises, home merchants—because these things mean more thrift for you and more opportunity for your family.

Whatever you have done in the past, resolve that in the future you will lend your aid to those who are laboring for the advancement of local industries. If you are not already a member of the local Board of Trade, see that your name is enrolled with that organization without delay, and when you have become a member stand ready to assume your share of the burden. Much has been accomplished for the advancement of the city by the Board of Trade in the past, but its best work lies in the future. To accomplish this it must have the active support of every person interested in the growth of local industries—and that means everyone with a home to make or a family to support.

A Business Suggestion.

The question of public road improvement is the all absorbing one of the day, as indeed it should be from a business viewpoint. Indeed, we have been a little slow in realizing the natural advantage of San Mateo county; it being the only land outlet from the metropolis, and having the great redwood reserved adjacent on the south, with the most beautiful mountain, foothill and valley scenery in the state.

Horace Hawes said, San Jose will some day be a suburb of San Francisco. When that day comes real estate will sell for thousands of dollars an acre, where it sells for hundreds of dollars now. We must have roads, and we must have money to make them with.

The human body would have as good a chance to thrive with its veins and arteries obstructed as will business interests with the highways and byways in that condition. We must vote for the bonds as the only available means of getting ready for the great Fair of 1915. A gentleman said to me, we want roads and we want money to build them but the average man is not to be trusted to exploit large sums with a strict regard for the public weal. If the bond is defeated it will be on this very account.

It is hoped that those public spirited and patriotic gentlemen who are so zealously endeavoring to boost the project will also study deeply into the practical aspect of the matter. Primarily, the plans and specifications, then the quality of material, its preparation, combination and application; and above all its actual cost. The greatest wisdom should be employed in location, breadth of road and character of foundation. We are doing these things for the future and for a teeming population.

Wisdom suggests a separate track for the automobile—its merit is in its speed. It annihilates distance. To curtail its usefulness would be a step backward. Give them a track of their own on the main thoroughfares and let them work out details for the rest among themselves, holding them accountable to the law for any injury they may cause to life or property.

WM. LASSWELL.

Specials at Popular Prices.

A three-reel presentation of the popular romance "The Little Minister" was the attraction at the Bell Theater Friday night and will be repeated this evening. This is one of the strongest productions of an always interesting story and should attract a full house here as it has done elsewhere. For Monday and Tuesday evenings manager Nathhorst has secured as a headliner a strong military drama of the southern border line, "The Mexican Spy." In a two-reel picture is depicted a most realistic story of love and military life, the scene being laid in a section having special interest at this time. The usual popular rate of 5 and 10 cents will prevail.

Why San Mateo County Needs Good Roads

The good Roads question in this county is a very important one and one to which we should give considerable attention; for there is nothing that will more certainly advance San Mateo county, nor is there a single issue that means more to this county than does good roads.

San Mateo county will be at a disadvantage, in the way of a display of her natural resources, at the Exposition at San Francisco in 1915. She will not have the facility, as will her sister counties, for the display of their resources, whether grain, oranges, apples, prunes or other fruits, or minerals or manufactured wares, or whatever that particular locality may be noted for. They will ship to the fair grounds the articles that are to be exhibited and will spend thousands of dollars to arrange these exhibits so that they will attract the attention of the visitors to the great resourcefulness of that particular locality whence these products come. In other words, they will advertise their county and will try to make permanent residents of those of the visitors who intend locating in California.

What is San Mateo county noted for? She has fine fruits and flowers; but can she, or if she could, would she, exhibit these and claim that it is for these things that she is noted?

No! San Mateo county is noted for her fine residences, her beautifnl hills and valleys, her canyons and lakes, and especially her unsurpassable climate.

Now then, can we transport to the fair grounds those things for which we are noted, in order that the visitors may see what we have in our county?

No! Therefore, we have but one alternative; that is to arrange for the transportation of the visitors to our county and let them here see San Mateo's natural beauty, her residences and her climate.

But, in order to do this we must first put our roads in such condition that the visitors can, with ease, make this trip into our county; and unless these roads are improved we will draw to our county but a very few of the 1915 tourists and the impression that these few will receive will not be one that will do justice to the county.

Good roads in San Mateo county will not be a luxury—they are a downright necessity: we absolutely must have good roads—not only to draw our share of the profits to be derived from the Exposition, but to hold up our own end and keep the paople we now have.

Running a city or county is very much like running an ordinary business; there is competition, and if we wish to draw our share of those who are coming in 1915 to reside here permanently, we must compete with the other counties by making living here as agreeable and pleasant as possible; and not only that, we mast first make our county attractive enough to draw the people.

It is easy enough to induce people to locate in San Mateo county after they have once seen the country, but our greatest task is to draw the people here on a visit, after that the natural beauty and the fine climate in the county will do the rest.

But, as I said, in order to draw people here we must have good roads, or the automobile tourist—and they will be legion—will tour the country on the other side of the bay, and will probably locate there if they intend locating in this state.

It is safe to say that the automabile traffice on the Foothill Boulevard, in Alameda county, surpasses the traffic through San Mateo county by about five to one, and this condition exists simply because we have not the roads. The natural beauty of our county is far superior to theirs, and if we had the roads we would have a much greater traffic—therefore more money spent in the county and a great increase in population.

So let us, therefore, be broad and look at the benefit that will be derived from good roads and not at a few little particulars that may not seem entirely satisfactory to our individual notions. There are over 30,000 people in San Mateo county who are to be satisfied by the bond issue and there are bound to be a few who may, for some reason or other, take exception to certain conditions of the issue, but let us not allow some phase of the issue that may not seem satisfactory for one mile of road defeat the issue that means so much to San Mateo county.

And let us remember on April 8th that we must go to the polls and vote "YES" and thereby get the roads we need so much, for we have the beautiful country and fine climate, and all we need to start us on the road to prosperity is those Good Roads.

NEWS GATHERED FROM THE COUNTY

Interesting Notes Picked Up By Hustling Reporters in the Country Districts.

SAN BRUNO NOTES.

If the voters wish to do the right thing at the school trustee election next Friday A. H. Gillispie will be elected. Let the endorsement and wish of his neighbors be your guide. The office rightfully belongs to them. The 5th addition has never been represented on the board and the parents of a large attendance of children feel that a trustee from that end should be elected at this election. Mr. Hearne who was nominated at a previous meeting of the club has declined. The office is not the seeking of Mr. Gillespie but the insistant wish of the neighborhood. Let every one who belives in harmoney and doing the right thing vote for the residents of the north end and their choice for trustee.

The Christian Science under the charge of Mrs. Smith of Mountain View and other guides of San Mateo meeting regularily at Carpenters Hall Wednesday mights. The followitg is being increased and they have quite a congregation of well known San Brunites.

The central committee of the affiliated clubs met at an adjourned meeting laft Monday night. Reports of several committies were heard and an encouraging bata was presented and when complete will be published. The citizens are attending those meetings and the stamp of their approval is heard on all sides for the members are working as a unit for the best wishes of all. Their efforts will soon show that an organized effort in the right direction can accomplish much. San Bruno cannot afford to remain dorment any longer and all of the citizens recognizing this fact will push the chariot of progress with vigor and soon the town will see an awakining for which it has long looked.

The fire commissioners have called an election to be held on April 7th to elect 3 commissioners for the ensuing year. A year ago every voter in San Bruno was urged to vote as the strife for the offices were keen as two opposing tickets were in the field. The rancor of old and the fighting spirit has been displaced by better judgment and a desire to harmonize has taken hold of the majority of the people. If there are any candidates at this writing they have not thus far been announced. The officers are open for the asking. As little or no interest will be manifested on election day,

EXTENSIVE LANDED ESTATE TO BECOME GAME PRESERVE

Theodore J. Hoover, who, with his brother, H. C. Hoover, is rated among the foremost mining engineers in the world, has just purchased a large land holding upon Waddell creek, in Santa Cruz county. The principal portion of the porperty is that of the Waddell estate, containing 840 acres. Other lands included are those of the Button estate, the Byrne heirs and J. S. Bernheim, the total running up to 1600 acres. The Shore Line Investment Company's 229 acres contiguous and fornting upon the ocean, has also been sold to Mr. Hoover, and the papers covering that transaction have been placed on record, although the deed has not yet passed.

The estate thus created lies about five miles along the Waddell creek, from the ocean to a point some distance beyond the fork, and is beautifully wooded with redwoods, firs, oaks, madrone, alder and other mountain trees. In the past, Waddell creek was famous as a trout stream but latterly, because of the ease with which automobiles may reach that region, it has been fished out. It will be restocked, and fishing will be strictly prohibited for a period of three years. Hunting will also be stopped so that the wild life may again fill the canyon. That it was abundant there, is evidenced by the fact that the old Spanish name of the stream is translated, "Home of the Bear," and its first American owner, Waddell, was killed by a grizzly bear near the site of the old mill, three miles up from the ocean.

The Weddell heirs, until now holding the property, are Jennie H. Young of Santa Cruz, A. K. P. Harmon of Berkeley and John A. Waddell, professor at Santa Clara.

Mr. Hoover, whose offices are in London, England, plans to make his property a summer idling palce. He was in Santa Cruz last week, and is leaving for the East, to return to Europe.

The entire deal was handled, both as to buyer and seller, by The University Realty Company of Palo Alto and San Francisco.

As planned the new building will have a dance hall 50x100 feet, with the necessary dressing rooms, while the upper floor will be occupied by the lodge room, ante-rooms, banquet room, parlor, kitchen, etc., all provided with thoronghly modern conveniences.

Last night the second performance of the "Windmills of Holland" was a splendid success and is bringing considerable praise and commendation for the work of Mr. Carrington. Mr. Carrington sang beautifully a number of songs as special music. Richard Davidson, a former pupil at Sequoia pleased the audience with a couple of violin selections. He plays well and Redwood people like to hear him. Those who failed to get copies of the score last night will find them on sale at Walsh's drug store.

SYMPTOMS OF CONSUMPTION

Yield to Vinol.

The medical profession do not believe that consumption is inherited, but a person may inherit a weakness or tendency to that disease.

A prominent citizen of Evansville, Ind., writes: "I was ill for five months with pulmonary trouble, and had the best of doctors; I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results." (Name furnished on request.)

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

ASSESSOR'S INSTRUCTIONS

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

No change can be made by the Assessor after he turns over his books to the Board of Supervisors on the first Monday in July. The Board then sits as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.
